Biocontainment Facilities Conference 2004

The focus of this year's conference include four high-priority facility planning and operating issues for biocontainment laboratories: 1) security and biosecurity; 2) cost-effective project solutions; 3) design and construction details; and 4) solutions for achieving facility flexibility. These issues are detailed for a variety of specific containment applications, such as vivaria and animal research facilities, plant and insect research facilities, cGMP vaccine production, and containment in large animal research facilities. New technologies for decontamination, waste disposal, environmental control, and security systems are also examined.

Renaissance Vinoy Beach and Golf Resort, St. Petersburg, Florida

October 17-20, 2004

American Biological Safety Association (ABSA) 47th Annual Conference
Adams Mark Hotel, San Antonio, Texas

Contact: Phone: 847-949-1517, Fax: 847-566-4580, E-mail: absa@absa.org, Web Site: www.absa.org

October 23-26, 2005

American Biological Safety Association (ABSA) 48th Annual Conference
Westin Bayshore Hotel, Vancouver, British Columbia, Canada

Contact: Phone: 847-949-1517, Fax: 847-566-4580, E-mail: absa@absa.org, Web Site: www.absa.org

October 15-18, 2006

American Biological Safety Association (ABSA) 49th Annual Conference
Marriott Copley Hotel, Boston, Massachusetts

Contact: Phone: 847-949-1517, Fax: 847-566-4580, E-mail: absa@absa.org, Web Site: www.absa.org

Errata

The title of S. Mark Allen's article (Volume 8, Number 3, 2003, pages 102-111) should have read--
"Overview of Biomedical Waste Treatment Technology." We apologize for the error.
