EPA Pesticide Program Updates from EPA's Office of Pesticide Programs—3/28/06

New Telephone Line Established for Information about Antimicrobial Pesticides

The National Pesticide Information Center (NPIC) is now taking inquiries, via their telephone help-line and web-based services, regarding antimicrobial pesticides and pesticide products. Therefore, EPA's Antimicrobial Division hotline has been terminated, and EPA web pages with references to the Agency hotline are being updated to reflect this change.

NPIC is a toll-free telephone service that provides objective, science-based information about a wide variety of pesticide-related subjects. The service is available daily, 6:30 a.m. - 4:30 p.m. (PT), and the toll-free phone number is 1-800-858-7378.
