

# Global Biosafety and Biosecurity: Taking Action

February 15-17, 2011  
Bangkok, Thailand

This conference provides a unique global forum for policy makers, stakeholders, donors, international agencies and governments to advance biosafety and biosecurity and contribute to the worldwide fight against emerging infectious disease.

## Conference Objectives :

- Identify urgent gaps and priorities in under-addressed regions of the world.
- Explore the elements of cost-effective and sustainable programs.
- Facilitate a dialogue to leverage resources and collectively enhance local capacity.
- Advocate strategies for strengthening national policies and programs.
- Empower biosafety associations and individuals new to the field.
